Act, 2005: NO

(57) **Abstract:** Methods and composition of an anticholinergic (antimuscarinic) agent. The composition comprises a pharmaceutical formulation. Methods of making the same are also disclosed. The compositions contain glycopyrrolate in a pharmaceutical formulation that is in the form of tablet dosage form. The method for the tablet dosage form includes forming a core containing homogeneous mixture of the active ingredient with excipients wherein the active is in very small quantity and uniformly present in the formulation and dissolves faster in the mouth.
